  }
}]
```

is delimiter search_key is new field

Possible values for example

```
"search_key": "transaction_id## 123213"
"search_key": "cso##abc_cso"
"search_key": "mpc##mpc_abc"
"search_key": "dealer##level_dealer1"
"search_key": "other-references##some_data"
```

Inside the payload interface_id is mandatory*

start_date_time, end_date_time, search_key are non-mandatory

Interface changes:

For each interface have attribute name 'Search Options Conf'

```
{
  "transaction_id": "trans_id_n",
  "other-references": [
    "ref_data1_v",
    "ref_data5_v"
  ],
  "dealer": "ref_data6_v",
  "cso": "ref_data7_v",
  "mpc": "ref_data8_v"
}
```

Here above json object's keys only goes value as

```
"search-options":["transaction_id", "other-references", "mpc", "dealer", "cso"]
```
